SUMMARY

A front-end developer specialized in JavaScript and React.js, with strong abilities in CSS and frameworks. A quick learner with fast problem-solving abilities and an enthusiasm for developing detail-oriented applications. With my good communication skills obtained as a salesperson, I can contribute as a responsible and passionate team member.

SKILLS

Languages: **JavaScript** | **TypeScript** | HTML | CSS
Frameworks & Libraries: **ReactJS** | **Redux** | React-Router | TailwindCSS | Sass | styled-components | Bootstrap | MaterialUI | chakraUI | jQuery
other: Firebase | Git | Figma

PROJECTS

Where's NextTube (React, RTKQuery, React-Router, chakraUI, TailwindCSS)
- YouTube video searching applications, featuring "Travel".
- User can add their favourite videos to the "favourite list".
- Utilize RTK so that managing states is more accessible across multiple components.

CRUD To-Do List (React, TypeScript, Firebase, MaterialUI, TailwindCSS)
- Simple CRUD to-do list, with Firebase and email & password authentication.
- Dynamically manipulating database, including task's name, deadline and status.
- Toggling dark & light modes, with custom MaterialUI styling.

Landing Page (HTML, JavaScript, Sass)
- Company's Landing page for an imaginary outdoor brand, with fully responsive layouts.
- Styled with my own CSS using Sass, without using CSS frameworks.

WORKING EXPERIENCE

Sales representative: MIZUHO BANK, Ltd, Japan   2020. 4 - 2022. 6
- Engaged in financing business loans, including sales and screening.
- Take on the role of a sales promotion and work with other team members to increase sales.
